FREQUENTLY ASKED QUESTIONS

Q. How does Epilfree compare to Laser or Electrolysis?

A. The results of Epilfree are comparable to laser and electrolysis with the distinct advantages of being less painful, less expensive and effective for all hair colors and skin types.

Q. Who can receive treatments?

A. Women & Men of all ages (including teenagers), with any hair type or skin color, can safely & successfully use Epilfree. There is never a danger of skin pigmentation and the natural ingredients help nourish & soften the skin.

Q. How many treatments will I need?

A. The average person requires approximately 8-10 treatments depending on hair type & rate of growth. When dealing with women's hormonal facial hair, more treatments may be needed.
