

SO SIMPLE | SO EFFECTIVE

INTRODUCING OUR NEW SERVICE NON-LASER BOTANICAL HAIR REMOVAL

Epilfree is the newest technology in permanent hair reduction. This revolutionary 100% natural formula is an easy, effective and affordable alternative to expensive laser and electrolysis hair removal treatments. It permanently reduces unwanted hair growth while nourishing & softening skin. Epilfree works with waxing, sugaring or threading and is suitable where lasers are not effective, such as all skin colors and all hair colors, including blonde, red, grey and fine vellus hair (peach fuzz). It can even be used to remove hair on tattoos without damage or discoloration

- After waxing, our natural ingredients are applied which permanently stops the duplication of hair cells in the hair follicle.
- Safe, with no danger of skin pigmentation or burns
- There is no age limit, so Epilfree can be used safely on young people

The 3 concentrated formulas, (Facial, Intimate & Body) are specifically developed to treat each area of the body.

Typical areas include:

- | | | |
|-----------------|-------------|-----------|
