

THE OXYGEN MIRACLE

# Introducing SkinTonic for Professionals

A BUILDING BLOCK OF LIFE

Every Human, Animal  
and Plant Requires  
Oxygen to Thrive

## THE BEAUTY OF OXYGEN

# Why Oxygen?

From spa treatments and masks to foundation and moisturizers, oxygen is one of the hottest ingredients around. But why does our skin need the added O<sub>2</sub>?

“Oxygen has proven benefits for the skin. If you get burnt and go to a hospital, you are put in a hyperbaric oxygen chamber. If you have a brain injury, or if your body is in any type of distress, oxygen is administered. The reason for this is that oxygen stimulates the body’s natural healing function. It’s anti-inflammatory, anti-bacterial and stimulates collagen production.” - Joanna Vargas | celebrity esthetician

Oxygen is essential to wound healing as it functions as a nutrient and antibiotic, supports angiogenesis, cell motility and extracellular matrix formation.

O<sub>2</sub>SkinPro® has proven capability to oxygenate the skin, aiding in wound healing, tissue and cell regeneration, reducing pain and swelling as well as fighting oxidative stress that causes wrinkles. Truly a game-changer for cosmetics, beauty and skincare treatments.

PROMOTES HEALING & RESTORATION

# A Revolutionary Breakthrough in Skin Care

O2SKINPRO®

## What Is It?

O2SkinPro® contains Ox66®, the only known solid form of oxygen in existence. Up until the development of this novel molecule, oxygen has only been available in a gaseous form and not a form that can be easily introduced and absorbed through the dermis.

The Ox66® molecule is made up of a mineral-based salt clathrate carrying an extremely high concentration of oxygen. It is non-toxic, stable, and quickly delivers oxygen when applied to the skin.

STRAIGHT FORWARD SCIENCE

## O2SkinPro<sup>®</sup>

“It’s widely recognized oxygen plays a role in nearly every part of the wound healing stages. When an area of the body does not receive an adequate amount of oxygen, a condition known as hypoxia, can slow and even halt the healing process.”

- Advanced Tissue News, 'Oxygen and its Effects on Wound Healing,' Oct 16, 2014

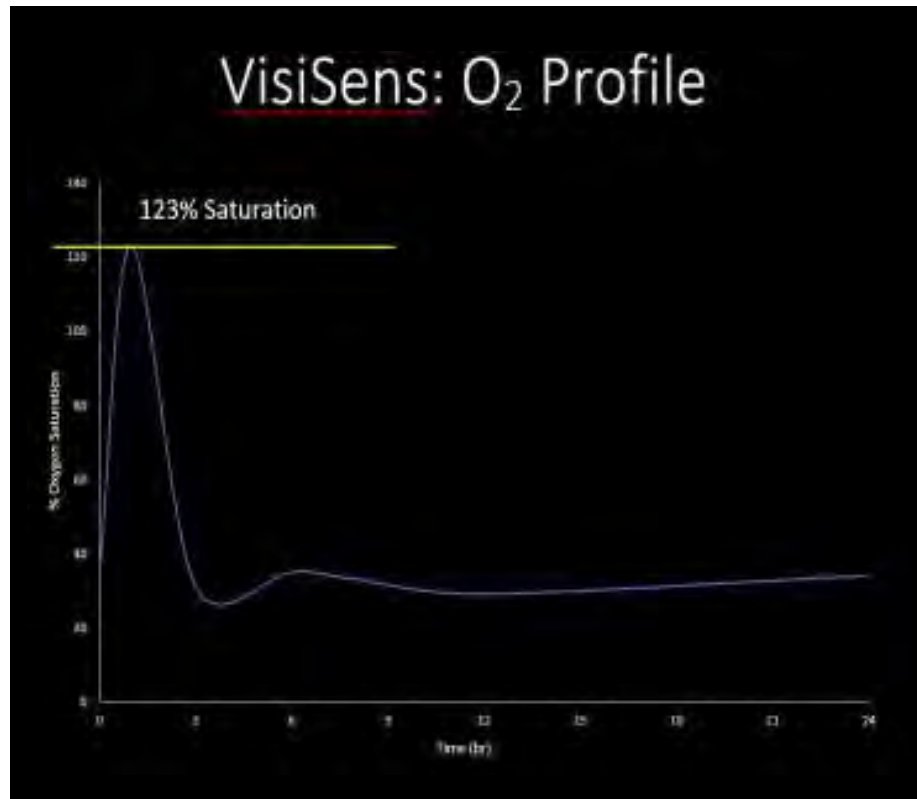

While the air we breathe delivers only 21% Oxygen, O2SkinPro<sup>®</sup> delivers 100% oxygen. When topically applied, research has validated that O2SkinPro<sup>®</sup> releases oxygen through the skin, showing 123% saturation within the first hour, providing lost oxygen to the wounded areas and hypoxic cells and tissues. The remaining clathrate ions sloughs off and are naturally removed as skin sheds.

Administered as a spray, serum or cleanser, O2SkinPro<sup>®</sup> rapidly stops pain, accelerates healing and reduces scarring.

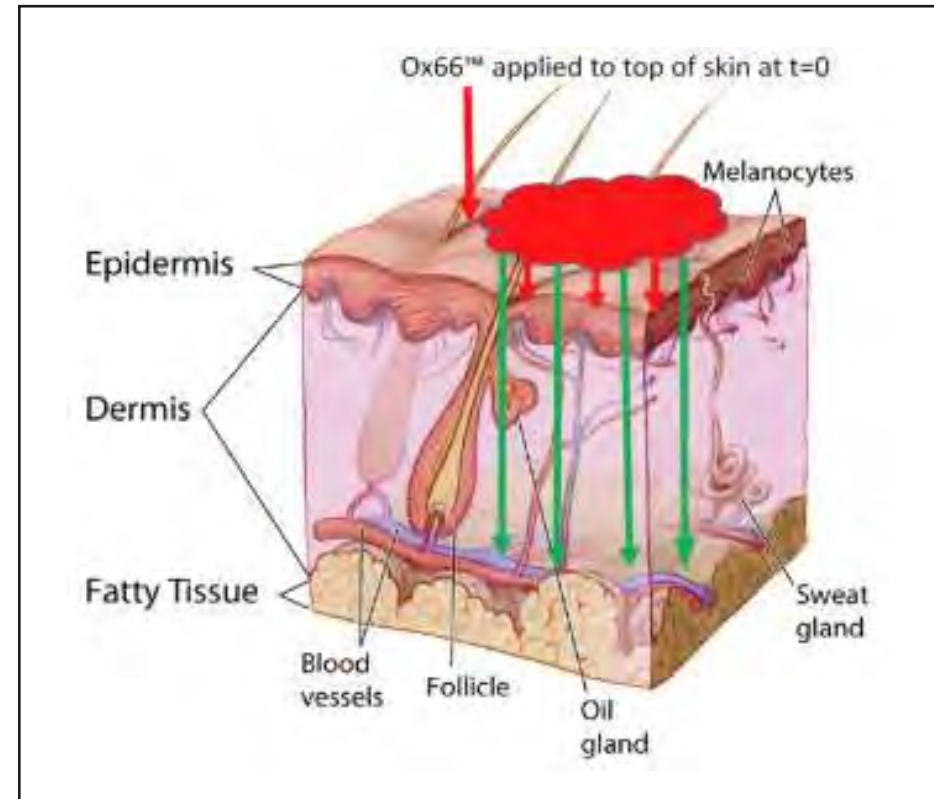

O2SKINPRO® SKIN TONIC CLINICAL TRIAL

# In Vivo Clinical Trial: Baylor University, Texas

VisiSens Graph

VisiSens Figure

*At 1 hour there was a spike of oxygen increase below dermis side due to the Ox66® application. This was approximately 123% of oxygen saturation based on fluorescence penetration assay.*

A NOVEL SCIENTIFIC BREAKTHROUGH

# O2SkinPro<sup>®</sup>

Using oxygen to heal wounds, relieve pain and enhance the skin isn't a novel scientific breakthrough. It has been known for many years. Until O2SkinPro<sup>®</sup>, there has not been a product that delivers significant oxygen in a way that doesn't cause toxicity like Hyperbaric Oxygen Treatment (HBOT) or has to be administered as a gas. O2SkinPro<sup>®</sup> is a breakthrough, novel, convenient... and above all, delivers oxygen as claimed!

*Before using O2SkinPro<sup>®</sup>*

*After using O2SkinPro<sup>®</sup>*

O2SKINPRO® SKIN TONIC

## Key Characteristics

- 100% Natural
- Suitable for All Ages
- Suitable for All Skin Colours
- Suitable for All Skin Types
- Scientific Formulation
- Topical Skin Care Treatment
- Dermalogically & Laboratory Tested
- Fast & Efficient Results
- Paraben & Alcohol Free
- Gentle on the Skin
- Non-Toxic & No Side Effects
- Not Tested on Animals

O2SKINPRO® SKIN TONIC

## What Does It Do?

- Provides oxygen in a form that can be easily applied
- Reduces allergic reactions in specialty skincare products
- Oxygenates the skin to speed recovery
- Boosts cell turnover and replacement
- Helps reduce wrinkles and stimulates collagen
- Triggers natural healing responses by providing lost oxygen
- Kills bacteria and prevents infection
- Helps to heal skin viruses and skin disorders
- Aids topical healing from pre-cancer treatment
- Helps relieve pain and reduces edema
- Works as a general anti-inflammatory
- Relieves oxidative stress caused from chronic infections
- Halts free radical cascade reaction

## PROFESSIONAL SkinTonic

### *A Multi-Functional Face & Body Spray*

O2SkinPro® SkinTonic is a multi-functional healing spray that boosts any in-salon and/or spa treatment performed, by oxygenating the skin and speeding up the recovery time.

Pain and discomfort is a signal from the brain that the cells are not getting enough oxygen. The O2SkinPro® SkinTonic treatment reduces redness and discomfort post treatment by providing lost oxygen to the skin cells & tissues, stimulating cell regeneration. It stops pain, accelerates healing and reduces scarring of wounded areas with no side effects. Your clients will leave looking fresh and radiant.

#### FOR IN-SALON OR SPA TREATMENTS:

- Microneedling & Microblading
- Plasma Pen & Derma Pen
- Facials & Chemical Peels
- Laser
- Massages
- Waxing
- and any other treatment

O2SKINPRO® SKIN TONIC AT WORK

O2SKINPRO® SKIN TONIC AT WORK

## Before & After: Plasma Pen

Right Side | Without O2SkinPro®

*Skin is inflamed, red and irritated directly after the procedure*

Left Side | With O2SkinPro®

*15 minutes post-treatment, with reduced redness, swelling, pain and inflammation*

HOME CARE TREATMENT

# SkinTonic

O2SkinPro® SkinTonic is a multi-functional healing spray that is used as a powerful post treatment after any specialised in-salon and/or spa treatment and post-operation and/or surgery procedure with no side effects.

This magical formula has a high concentration of Ox66® which helps to relieve pain and inflammation, reduces redness and bruising, accelerates healing and reduces scarring of the wounded areas. It stimulates cell regeneration, provides CO<sub>2</sub> and nourishment by oxygenating the skin and speeding up the recovery time.

It is recommended to include O2SkinPro® SkinTonic spray into your daily skin routine. It reduces signs of ageing, fine lines, wrinkles and hyperpigmentation keeping the skin naturally radiant and nourished after each use.

HOME CARE

# SkinTonic
