Quiet Wash

purify & prep

DESCRIPTION

Quiet Wash is a gentle, restorative cleanser that helps improve skin firmness, elasticity, and overall recovery while refining texture and tone. It supports a healthy complexion by soothing redness, calming sensitivity, and promoting balance for all skin types, including reactive or compromised skin. This cleanser also helps repair and strengthen the skin's barrier function, enhancing hydration and resilience. With continued use, the skin appears smoother, clearer, and more radiant for a calm, refreshed appearance.

BENEFITS

- Properly cleanses the skin while maintaining hydration, balance and protection.
- Calms inflammation and redness, helping to soothe and comfort sensitive or reactive skin.
- Gently fortifies skin cells and supports barrier function, promoting resilience skin health.
- Improves firmness, elasticity, and overall skin recovery.
- Refines texture and clarity, revealing smoother, brighter, and more even-toned skin.

KEY INGREDIENTS

Sclerocarya Birrea (Marula) Seed Oil is a nutrient-rich, lightweight botanical oil that provides deep nourishment and protection for the skin. It helps to dissolve impurities and makeup while maintaining the skin's natural moisture balance. Abundant in essential fatty acids, antioxidants, and vitamins C and E, Marula Oil supports barrier repair, enhances hydration, and leaves the skin soft and supple. Its anti-inflammatory and antioxidant properties help to calm irritation, reduce redness, and defend against environmental stressors. The result is clean, smooth, and comforted skin that feels refreshed without dryness or tightness.

Aesculus Hippocastanum (Horse Chestnut) Bark Extract is extracted from seeds of Aesculus hippocstanum. The compound escin in Horse Chestnut seeds exhibits anti-inflammatory and antioxidant activity. Horse Chestnut Extract boosts the condition of the skin by improving the circulation and delivering oxygen-rich blood to the dermal matrix. By inhibiting enzymes elastase and hyaluronidase, Horse Chestnut Extract helps the skin to battle the signs of aging that deplete collagen and elastin from the skin. It has anti-inflammatory properties, helps to heal wounds while reducing redness, soothing, and calming the skin.

Moringa Pterygosperma Seed Extract is rich in omega fatty acids and antioxidants which soothe and protect the skin. The oleic acid in moringa oil acts as a barrier to help seal in moisture, and hydrates dry and dehydrated skin. It reduces fine lines and wrinkles, improves the overall appearance of the skin, soothes inflammation, and can be used by all skin types. Moringa Seed Extract with its antibacterial, antifungal, and antimicrobial properties, works to combat bacteria and fungus that can infect skin and cause blemishes and irritation. It can be used to condition dry lips and other rough, dry skin conditions such as dermatitis, eczema, and psoriasis.

Betula Alba (Birch Bark) Extract is a powerful botanical rich in antioxidants and triterpenes that help protect, calm, and restore the skin. It works to inhibit the breakdown of collagen and elastin, preserving firmness and elasticity, while providing potent anti-inflammatory and free radical–scavenging benefits. Known to reduce pain, itching, and irritation, Birch Bark Extract supports comfort in sensitive or compromised skin. It also helps brighten uneven tone, aids in the treatment of actinic keratosis, and accelerates wound healing, making it an exceptional ingredient that promotes balanced, resilient, and radiant skin.

Plantago Lanceolata (Plantain) Leaf Extract is a restorative botanical known for its ability to improve skin firmness, elasticity, and overall recovery. Rich in bioactive compounds and antioxidants, it helps support the extracellular matrix, reinforcing the skin's structural integrity for a smoother, more resilient appearance. This extract also works to lighten sun spots and pigmentation, promoting a brighter, more even complexion. Its gentle rejuvenating properties make it an ideal ingredient to refine texture, restore vitality, and enhance skin tone clarity.
