what's new (and why it matters)

- **ARCTOSTAPHYLOS UVA URSI (BEARBERRY) LEAF EXTRACT** - A natural antioxidant-rich extract known for helping brighten uneven skin tone and minimize the appearance of discoloration. Bearberry leaf extract supports a clearer, more radiant complexion while helping protect skin from environmental stressors that can contribute to dullness and visible aging.
- **SALIX NIGRA (WILLOW) BARK EXTRACT** – Derived from black willow bark, this gentle exfoliating extract helps remove buildup, refine skin texture, and minimize the appearance of pores. Rich in naturally occurring salicylates, it helps clarify oily or congested skin while promoting a smoother, healthier-looking complexion without over-drying. Willow Bark also provides exceptional anti-inflammatory properties that have been shown to reduce redness and soothe skin irritations.
- **PRUNUS SERRULATA (CHERRY BLOSSOM) FLOWER EXTRACT** – A soothing botanical extract packed with antioxidants that help calm and revitalize the skin. Cherry blossom extract supports hydration and softness while helping improve the appearance of dullness, leaving the complexion looking refreshed, radiant, and more youthful.
- **BIXA ORELLANA SEED EXTRACT** – Derived from the annatto plant, this antioxidant-rich extract helps defend skin against environmental stressors while supporting a brighter, healthier-looking complexion. Known for its soothing and revitalizing properties, it helps improve the appearance of dull, tired skin and promotes a smoother, more radiant overall appearance.
- **KALANCHOE PINNATA LEAF EXTRACT** – A moisture-supporting botanical extract valued for its soothing and replenishing properties. Kalanchoe pinnata helps calm dry, stressed skin while supporting hydration and softness. Rich in antioxidants, it helps protect against environmental aggressors and leaves the complexion looking refreshed, balanced, and healthy.
- **PROTEASE** – An exfoliating enzyme that helps break down and remove dead skin cell buildup from the skin's surface. Protease supports smoother texture, improved softness, and enhanced radiance while helping other skincare ingredients absorb more effectively for a clearer, revitalized complexion.
- **LIPASE** – A gentle enzyme that helps break down excess oils and impurities on the skin's surface. Lipase supports clearer-looking skin by helping reduce congestion and buildup while promoting a balanced, refreshed complexion without stripping essential moisture from the skin.
- **COCOS NUCIFERA (COCONUT) FRUIT EXTRACT** – A nourishing extract rich in skin-conditioning compounds that help hydrate, soften, and comfort the skin. Coconut fruit extract supports moisture balance while providing antioxidant benefits that help protect against environmental stressors, leaving skin smooth, supple, and healthy-looking.
- **GLYCYRRHIZA GLABRA (LICORICE) ROOT EXTRACT** – A soothing botanical extract known for helping brighten uneven skin tone and reduce the appearance of discoloration. Rich in antioxidants and calming compounds, licorice root extract helps comfort sensitive skin while supporting a clearer, more radiant complexion and protecting against environmental stressors that contribute to visible skin aging.

still your trusted polish

- **JOJOBA ESTERS (BEADS) -** Gentle biodegradable exfoliating beads.
- **ALLANTOIN** – Helps soothe and comfort dry, irritated skin.
- **YOGURT EXTRACT** – Helps nourish and soften the skin.
- **PINUS CEMBRA WOOD EXTRACT** – Helps calm and revitalize stressed skin.
- **ACETYL HEPTAPEPTIDE-4** – Helps smooth and support youthful-looking skin.
- **ACETYL HEXAPEPTIDE-49** – Helps calm skin and reduce visible redness.

the result

- Gently exfoliates to smooth and refine skin texture
- Brightens dull, uneven-looking skin for added radiance
- Helps calm visible redness while supporting hydration
- Leaves skin soft, polished, and refreshed without over-drying
